**ALTERNATING FULL FREEWAY CLOSURES TONIGHT ON  
NORTHBOUND AND SOUTHBOUND I-35W AT I-35W/I-820 INTERCHANGE**

**FORT WORTH, Texas** – The following overnight closures will be in place for approximately three hours each to allow workers to safely unload construction materials at the interchange:

1. All lanes of southbound I-35W at the I-35W/I-820 interchange. Traffic will be redirected to FM 156.
2. All lanes of northbound I-35W at the I-35W/I-820 interchange. Traffic will be redirected to Haltom Road.

Drivers should note that **the above closures are sequential**; the southbound lanes are expected to close at approximately 9 p.m. while the northbound lanes remain open. Once the southbound lanes open approximately three hours later (roughly 12 a.m.), the northbound lanes will be closed for the duration of the early morning.

These opening and closing times are estimates and the exact timing of these closures is subject to change based on the progression of the work. However, the order of the work will remain the same.

This work is weather-permitting. **Updated closure information is posted daily** on Twitter ([@NTExpress](https://twitter.com/NTExpress)) and Facebook ([facebook.com/northtarrantexpress](https://facebook.com/northtarrantexpress)).

This work is part of the \$1.4 billion North Tarrant Express 35W project, which includes a 6.5-mile section that is currently ranked twenty-third on the state's most congested roadway list. Ranked sixth when construction began in 2013, this section of I-35W from north of I-30 to north of I-820 including the I-35W/I-820 interchange in Fort Worth is already seeing traffic improvements with the reconstruction of main lanes and the addition of TEXpress managed lanes.

Drivers are encouraged to "Know Before They Go," and visit [www.northtarrantexpress.com](http://www.northtarrantexpress.com) for upcoming closures. To view detour maps, please visit the [Alternate Route Map](#) page of our website. Also, as our lane closures are updated frequently, please visit the [Lane Closures](#) page on our website daily for the most current information. Closures are subject to weather conditions, and construction activities may be postponed if necessary.
