**CLOSURES IN PLACE TONIGHT ON SB I-35W FROM I-820 TO MEACHAM
TO PREPARE FOR TRAFFIC SHIFT**

FORT WORTH, Texas – Beginning tonight, **May 11, at 9 p.m. and lasting until 5 a.m. May 12**, crews will work on operations to shift southbound traffic to new pavement on I-35W from I-820 to Meacham Boulevard.

Drivers should expect the following closures:

- Alternating lanes of southbound I-35W from I-820 to Meacham Boulevard.
- The off-ramp from southbound I-35W to Meacham Boulevard. Traffic will be redirected to Mark IV Pkwy.
- All lanes of the southbound I-35W frontage road from Great Southwest Parkway to Meacham Boulevard.

When this traffic shift is complete, access will be temporarily restored to Meacham Boulevard for those traveling from westbound I-820 to southbound I-35W. This temporary ramp will remain in place until mid-summer.

“As construction progresses you will continue to see new infrastructure open which contributes to a safer commute for drivers,” said Heather DeLapp, regional public relations manager for North Tarrant Infrastructure, the project contractor.

This work is part of the \$1.4 billion North Tarrant Express 35W project. This includes a section that is currently ranked number six on the state’s most congested roadway list along 6.5 miles of I-35W from north of I-30 to north of I-820 including the I-35W/I-820 interchange in Fort Worth. The project includes the reconstruction of main lanes and the addition of TEXpress managed lanes.

Drivers are encouraged to “Know Before They Go,” and visit www.northtarrantexpress.com for upcoming closures. To view detour maps, please visit the [Alternate Route Map](#) page of our website. Also, as our lane closures are updated frequently, please visit the [Lane Closures](#) page on our website daily for the most current information. Closures are subject to weather conditions, and construction activities may be postponed if necessary.
