**NORTHBOUND I-35W TRAFFIC SWITCH BETWEEN SH 121 AND SPUR 280  
TO IMPACT DOWNTOWN MOTORISTS**

**FORT WORTH, Texas** – A traffic switch on northbound I-35W beginning at SH 121 and ending at Spur 280 will begin Tuesday, Nov. 1. This shift places northbound I-35W traffic onto new permanent pavement.

In order to perform the switch and prepare for construction activities on that stretch of highway, the following nightly closures will be in place:

- **Tuesday, Nov. 1** from 7 p.m. until 5 a.m. Wednesday, Nov. 2
  - Rolling closures along northbound 35W between I-30 and SH 121
  - On-ramp from eastbound and westbound Spur 280 to northbound I-35W will be closed. Traffic will be redirected to Rosedale St.
  - The direct connector from northbound I-35W to northbound SH 121 will be closed. Traffic will be redirected to Northside Dr.

This work is weather-permitting. **Updated closure information is posted daily** on Twitter ([@NTExpress](https://twitter.com/NTExpress)) and Facebook ([facebook.com/northtarrantexpress](https://facebook.com/northtarrantexpress)).

This work is part of the \$1.4 billion North Tarrant Express 35W project, which includes a 6.5-mile section that is currently ranked twenty-third on the state's most congested roadway list. Ranked sixth when construction began in 2013, this section of I-35W from north of I-30 to north of I-820 including the I-35W/I-820 interchange in Fort Worth is already seeing traffic improvements with the reconstruction of main lanes and the addition of TEXpress managed lanes.

Drivers are encouraged to "Know Before They Go," and visit [www.northtarrantexpress.com](http://www.northtarrantexpress.com) for upcoming closures. To view detour maps, please visit the [Alternate Route Map](#) page of our website. Also, as our lane closures are updated frequently, please visit the [Lane Closures](#) page on our website daily for the most current information. Closures are subject to weather conditions, and construction activities may be postponed if necessary.

###

Yellow	Northbound I-35W traffic shifted onto new permanent pavement
Red	Current lanes will close until a future traffic switch takes place for southbound traffic
