**NEW DIRECT CONNECTORS TO I-820 FROM NB I-35W
WILL RESULT IN TRAFFIC SHIFT**

FORT WORTH, Texas – A new direct connector from northbound I-35W to eastbound and westbound I-820 will result in a traffic shift on August 30.

Currently, the ramp from northbound I-35W to westbound I-820 is accessible using the left side of the highway. With the new configuration beginning August 30, motorists will enter the direct connector to I-820 using the right lane.

This new ramp, which will serve both eastbound and westbound I-820 from northbound I-35W, will also be located further south than either of the current direct connectors.

Traffic from southbound I-35W to eastbound and westbound I-820 will not be affected.

This work is weather-permitting. **Updated closure information is posted daily** on Twitter ([@NTEExpress](https://twitter.com/NTEExpress)) and Facebook (facebook.com/northtarrantexpress).

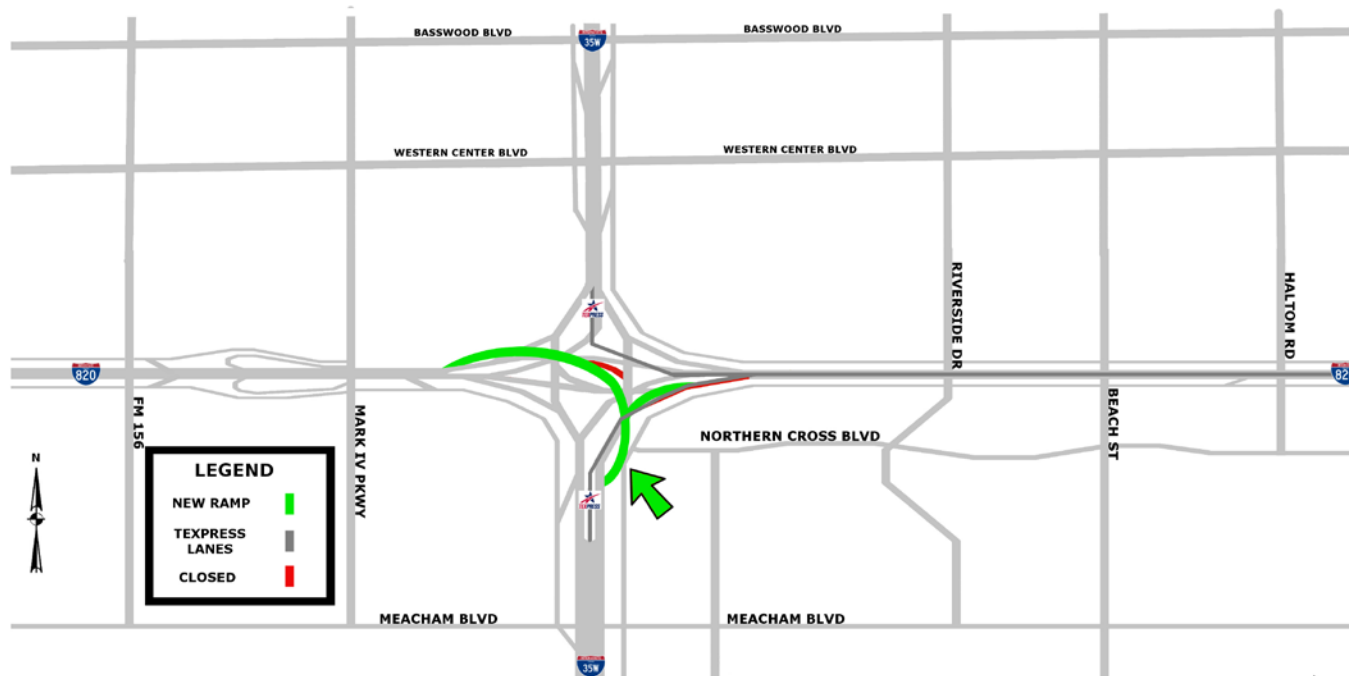

This work is part of the \$1.4 billion North Tarrant Express 35W project. This includes a section that is currently ranked number six on the state's most congested roadway list along 6.5 miles of I-35W from north of I-30 to north of I-820 including the I-35W/I-820 interchange in Fort Worth. The project includes the reconstruction of main lanes and the addition of TEXpress managed lanes.

Drivers are encouraged to "Know Before They Go," and visit www.northtarrantexpress.com for upcoming closures. To view detour maps, please visit the [Alternate Route Map](#) page of our website. Also, as our lane closures are updated frequently, please visit the [Lane Closures](#) page on our website daily for the most current information. Closures are subject to weather conditions, and construction activities may be postponed if necessary.
